FEATURES

**SHATTER
PROOF**

SHATTERPROOF POLYMER CONSTRUCTION

An ultra strong and durable polymer casing surrounds the heater, protecting it (and tank inhabitants) from damage.

24 - 26°C

*If room temperature is greater than 8 °C below 24-26 °C use a higher wattage heater.

PRE-SET TEMPERATURE

With no adjustment necessary, the heater is pre-set to maintain a temperature of 24 - 26 °C*.

FULLY SUBMERSIBLE

Waterproof design allows easy positioning inside the tank.

LED RUNNING LAMP

Illuminates to indicate when product in use.

EASY AND SECURE INSTALLATION

Heater stays in place with secure suction cups.
